SUMMARY

2 years of focused RAG and LLM application work. Fast learner with genuine production exposure at small scale.

SKILLS

Languages: Python, JavaScript

AI / LLM: LangChain, LangGraph, RAG, function calling, OpenAI API, Claude API

Retrieval: Chroma, Qdrant, hybrid search, reranking

Backend: FastAPI, Streamlit, SQLite, PostgreSQL

Ops: Docker, GitHub Actions, Render, Fly.io

PROFESSIONAL EXPERIENCE

AI Engineer - Brightpath EdTech (Sep 2024 - Present)

- Built the course-content assistant: RAG over 18k lesson pages with Qdrant, hybrid retrieval and a rerank stage; serves 12k students.
- Added a LangGraph flow with a grading node and retry edge to catch unsupported answers before they reach students.
- Wrote a 120-question evaluation set and tracked faithfulness weekly.
- Shipped with FastAPI + Docker to Fly.io; set up GitHub Actions CI.

Junior Developer - Brightpath EdTech (Aug 2023 - Aug 2024)

- Built internal dashboards in Streamlit and REST endpoints in FastAPI.

PROJECTS

rag-eval-playground - Open-source comparison of 6 chunking strategies with a reproducible evaluation notebook.

EDUCATION

B.E., Information Technology - Anna University, 2023
