SUMMARY

Software engineer, 5 years. Backend services and internal tooling. Most of my AI work is on my own time - see GitHub and portfolio.

SKILLS

Languages: Python, Java, SQL

Backend: FastAPI, Spring Boot, PostgreSQL

Other: Docker, Git, Jenkins, AWS (EC2, S3)

PROFESSIONAL EXPERIENCE

Software Engineer - Marlin Systems (Jul 2021 - Present)

- Maintain and extend Python/FastAPI services for an inventory platform.
- Wrote data-migration tooling and internal admin APIs.
- Dockerised legacy services and set up Jenkins pipelines.

Associate Engineer - Marlin Systems (Aug 2019 - Jun 2021)

- Java backend maintenance and bug fixing.
- Wrote SQL reports for the operations team.

PROJECTS

Side projects - Several LLM agent and retrieval projects built outside work. Details, code and write-ups are on my GitHub and portfolio.

EDUCATION

B.Tech, Computer Science - CUSAT, 2019
